

## **Radiology**

402-232-2273, ext. 25 or (402) 294-7405

Radiology offers a wide range of services to include, Mammography, Ultrasound, Computed Tomography, Fluoroscopy, Routine X-ray, Bone Density (Dexa) and MRI services. Routine X-ray exams are performed on a walk-in basis, Monday through Friday, 0730-1630. All other imaging exams require scheduling through the radiology department either by phone (402)294-7405, or in person. Scheduling hours are also from 0730-1600 Monday through Friday.

Health and safety concerns warrant that children (regardless of age) not be allowed to accompany patients to their exams. Children may not be left alone without adult supervision regardless, if under the age of 10 within the clinic (per Medical Group policy). If daycare arrangements cannot be arranged prior to a patient's appointment, please call the radiology front desk to reschedule your exam or contact your provider for assistance.

Female patients should check with their PCM to ensure they are current on mammogram screenings.
